Kwangwoon University

2023 Fall Undergraduate Admission Guide for International Students

The interview of international students

LIU YANG

China,
Electrical Engineering,
Junior student

1. Proud of our school

Kwangwoon University is a world-class famous science and technology university, and it is also a well-known comprehensive university in South Korea. The school has a rich scholarship system, has a strong learning atmosphere, and has close cooperation with major companies in South Korea, which provides great help to students' future employment. Our school has also produced many celebrities, such as the vice president of Samsung Electronics and the CEO of LG Electronics, from which we can see that our school has a super strong academic background and strong educational resources.

2. Reasons for choosing Electrical Engineering

Electrical engineering is one of the best majors in Kwangwoon University, because I prefer hands-on experiments since high school, so I plan to develop my future plan in the direction of an engineer in my future work, so I chose the engineering major in Kwangwoon University. Personally, I think there are two aspects to consider when choosing a major, one is liking, and the other is work, so when choosing a major, you should consider these two aspects and then make a choice. The engineering and computer majors of Kwangwoon University are very famous in South Korea, which is one of the most important reasons why I choose here.

3. What would you like to say to the students who are about to enter school?

Here I would like to say to the students who are about to enter school that it is not easy to study in a foreign country, so you must be worthy of your own choice, and I believe everyone will achieve their dream and desired results. At the same time, I personally think there are a few things to make as a remind to yourself. First of all, we must improve our Korean proficiency as soon as possible, so that we can better discuss with Korean students in class, because there are many presentations and discussions in Korean language in our school courses. Therefore, improving your Korean level as soon as possible will help you better integrate into Korean university life. Secondly, we must understand and follow the laws and regulations of South Korea, such as garbage classification, etc., and then we can make more friends, so that we will not be isolated and feel helpless when encountering difficulties. That's about all I can think of. Finally, I wish all the students can have a wonderful study abroad experience.

DIN VIOLETTA

Uzbekistan,
Business Administration,
Senior student

1. Proud of our school

First, Kwangwoon University is located in Seoul. Everyone know that Inseoul University are all good, right? Second, it seems to be the best school with a scholarship system that other schools cannot follow. You can receive a very good scholarship during your first semester of admission and while you are still in school. Third, there is an international office that manages foreign students. There are various programs for communicate with students, and it is an office that helps and takes care of problems that arise during study through such as Kakao Talk and Instagram. Lastly, university has a lot of courses only for foreigner students who are still not good at Korean. University provides a lot of help so that you can do well in your study abroad life.

2. Reasons for choosing Business Administration

I plan to continue living in Korea in the future, and after graduating, I was looking for a field where foreigners could find a job, and eventually chose the Department of Business Administration. And compared to other departments, the Department of Business Administration has a lot of classes for only foreign students. Thanks to this, I was able to understand the lecture content well and follow it well. The Department of Business Administration is largely divided into marketing, accounting, production management, organizational behavior, and finance, and there are various career paths available after graduation.

3. What do you want to say to the juniors who will be entering the school?

I recommended to apply for a minor or double major while studying. There are a number of credits that must be completed in order to graduate, but I think studying other majors is more effective than taking liberal arts classes. Even after entering university, there will be people who are still undecided about what to do next. Since you don't know what will happen in your life, I recommend a minor or double major if it possible. Of course, at Kwangwoon University, foreign students can apply without any restrictions.

The interview of international students

DUONG HOANG

Vietnam,
Korean Language and Literature,
Sophomore student

1. Proud of our school

While studying Korean at the Language Institute, I searched online for universities in Korea, and Kwangwoon University is one of the good universities. There are many reasons for me to choose to enter the Kwangwoon University. First of all, our university not only has a superior geographical location, but also has very convenient transportation system. Secondly, our university has a good education system, and the school facilities (skating rink, library) are very modern. In addition, our school has a number of highly capable and experienced professors, which are of great help for the students to improve their Korean language ability and their professional knowledge of international students. Not only that, the relationship between international students and Korean students is also very good. Finally, my favorite point for our school is the scholarship program, the scholarship program is really good for international students. The reasons above are why I chose Kwangwoon University. Also, I think Kwangwoon University is an university where you can really feel the Korean university life!

2. Reasons for choosing Department of Korean Language and Literature

The reason why I decided to study abroad in Korea is because I really like Korean. I chose the Department of Korean Language and Literature because I want to study not only Korean, but also Korean phonology, Korean grammar, and Korean literature. And the reason why I choose this university is because I heard that the department for learning Korean is very good here, and I am studying hard to realize my dream. Another important reason is that when I return to Vietnam in the future, I want to teach Korean language and Korean literature to Vietnamese students in the Vietnamese universities. If you are interested in Korean literature or Korean literature, please do not hesitate to sign up!

3. What would you like to say to the students who are about to enter school?

You can feel the life of a Korean college student at our university. However, it is very important to go to college not only to experience college life, but also to learn professional knowledge. The reason is that you have to find a job after graduation. So I hope you can enjoy your college life and study hard. And there are many competitions in our school, so I would like to actively participate if it is possible. Think carefully before choosing the school for you which can help you achieve your dreams. Learn professional knowledge at Kwangwoon University, experience university life at Kwangwoon University, and realize your dreams at Kwangwoon University. Kwangwoon University is an university which is worth studying. What are you waiting for? Everyone, I am waiting for you at Kwangwoon University.

MARTIUK OLHA

Ukraine,
Media and Communication,
Junior student

1. Proud of our school

Hello everyone who wants to enter our university! My name is Olha and I from Ukraine(Europe). It's been already 5 years since I came to Korea at first time. When I came to Korea, my goal was to learn Korean for my future admission in university. After thinking a lot about where to apply, I decided on Kwangwoon Uni, which offers a lot of benefits. Our university is located in Seoul, but it may feel quite far away to some. My Korean friends often ask, "Isn't it far?" The answer is definitely no. The location of the university is very convenient due to subway line 1. Also, our university has one of the most beautiful libraries among universities in Seoul. Take a look at our library and you will be amazed at its beauty. And even if you are worried about your Korean level, as I was when I entered the school, there are many opportunities to take Korean classes with professors specializing in this field.

2. Reasons for choosing Department of Media Communication

In fact, since childhood, I have been very interested in media, especially TV shows and media such as YouTube. While contemplating which department I should go into, I accidentally found out that our university has a Department of Media Communication. Our faculty is divided into three areas of specialization.(Strategic Media, Interactive Media, Press Information(Entertainment)). After further researching the information, I found out that our university's media department is one of the best in the country in this field. Isn't that cool? The professors are incredible experts in their fields, explaining everything in detail, interestingly, and most importantly, in an understandable way to understand media-related material. I believe that upon graduating from our Faculty, you will become one of the leading experts in any industry you care about!

3. What do you want to say to the juniors who will be entering the school?

The most important thing is not to worry that it will be difficult for you and there will be strong misunderstandings with teachers. The main thing is to show a desire to study your specialty. As I said above, if you're worried about your Korean level, this shouldn't be a big deal as you can easily improve your skills in Korean classes. Also, our university offers scholarships to outstanding students, which can be one of the coolest and most powerful incentives. Honestly, the most important thing I would say is if you want to put all your worries aside and definitely research the direction of the faculty you applied to, you will succeed. First of all, I wish you all your desires and aspirations! Fighting! you can do it!

Why Kwangwoon?

Convenient transportation and location

- Very convenient transportation with 20~30 minute distance to downtown Seoul (City hall, Dongdaemun, Myeongdong, etc.)

Scholarship system at the highest level among universities in Seoul.

- By operating a rich scholarship program, scholarships amounting to 30~80% of the tuition fee are offered during the first semester after admission. After enrollment, students can receive almost 100% scholarship.
- We provide scholarships for foreign students, including the General Alumni Association Scholarship, LG Industry Scholarship, Korean Immigrant Foundation Scholarship, and so on.

Kwangwoon Educational System that meets the global standard

- IEQAS(International Education Quality Assurance System) certification by the Ministry of Education
- 11 majors from the Engineering School are certified by ABEEK(Accreditation Board for Education of Korea)
- 11 majors from the Engineering School are certified by ABEEK(Accreditation Board for Engineering Education of Korea)
- The School of Business Administration is certified by KABEA(Korean Association for Business Education Accreditation)
- The School of Architecture is certified by KAAB(Korean Architecture Accrediting Board)

A university with an advantage in employment/entrepreneurship

- Ranked 10th in Korea in terms of employment/entrepreneurship(hold by 2020 Korean Economy)
- Operates specialized foreign students employment program, including, corporate employment project during school, etc.
- Operates No.1 start-up support system among Korean universities

Multi-Care Program

- Provides consulting services for foreign students concerning daily life and academic life in the university.
- Operates 1-on-1 mentoring programs with Korean students, as well as study group programs (tutoring, study groups, etc.)
- Operates and supports the international student's unions, and tutoring, etc.

Multiple International Students Program

- Operates the International Student Counseling Group(KIF) under the Office of International Affairs.
- Operates and supports international student unions of different nations.
- Operates clubs exclusively for international student. (soccer, volunteering, etc.)
