※ It is recommended to install a new course registration program before registering to check if it is properly installed.

C. Since the subject of "English Conversation" (영어회화) is removed from the required elective course list since the 2019 academic year, it will also be removed from the graduation requirements starting from February 2019. Please note that as of AY2019, "College English" (대학영어) is compulsory for all students. (Among those who were accepted before the 2019

academic year, students who did not have College English as a required subject may not take it.)

Please also note that the elective required course from the 2020 school year has been changed to "Convergence Thinking and Writing (융합적사고와글쓰기)"

D. You can log in to the course registration program from midnight of the registration date, and you can search courses, mark your favorites, and check availability.

E. As the curriculum changes in AY2024, many subject names have been changed and be sure to check the "Course Status Table" (동일교과목 현황표), which will be announced later, in the course registration materials.

(If you apply for the same course that was previously completed, your application either will be denied, or the course will be considered retaken.)

F. When registering for elective courses

G. From Fall 2018, the system has been changed so that spare seats are not immediately shown when registering for popular courses to prevent course trading. For more details, please refer to the course registration materials (spare seats do not appear immediately, even if you cancel your course after all the places are filled).

H. For other matters, please refer to the course registration materials for Spring 2024, which will be announced at the end of January.
